## **Final Rejection**

### **The Status of Claims**

Claims 1-33 are pending.

Claims 1-25 are rejected.

Claims 26-29 are withdrawn.

Claims 30-33 are allowable.

### **Claim Rejections - 35 USC § 112**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the term " comprising " is recited. This expression is vague and indefinite because it would mean that there are some additional components besides a substituted polymer resin. Therefore, the examiner recommends to change from " comprising " to " have".

**Double Patenting**

The rejection of Claims 1-25 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-23 of U.S. Patent No. 6,960,360 B2 has been withdrawn due to the Terminal Disclaimer filed on 10/18/06 .

**Claim Rejections - 35 USC § 103**

1. Applicants' argument filed 11/01/06 have been fully considered and they are persuasive.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The rejection of Claims 1-19 and 30-33 under 35 U.S.C. 103(a) as being unpatentable over Gabetta et al (U.S. 5,200,186) in view of Langston (U.S. 4,500,556)

Art Unit: 1625

and S.O.R.I.(GB 1,235,379) has been withdrawn due to applicants convincing argument in the amendment.

**Applicants' Argument**

2. All the prior art do not disclose the use of a substituted polymer resin having aromatic rings with one or more electron –withdrawn groups.

First, regarding applicants' argument , the Examiner has agreed.

**Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1625

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
